

LIFAair LA510 Smart Air Purifier

The LA510 provide long- lasting protection for you and your family. Combine with our innovative Realtime Smart Controller and advanced cleaning technology, purifiers' high quality HEPA- filters collect particles effectively, while its massive gas adsorbent barrels (2.4kg) adsorb harmful gases and VOCs such as formaldehyde.

Parameter	Unit	Amount
Particle CADR	m ³ /h	490
HCHO CADR	m ³ /h	223
Applied Area	m ²	34- 58
Noise	dB (A)	34-63
Power	W	1-60
Size	mm	Diameter 300*800
Net Weight	kg	13.6 kg
Packing Size	mm	1058x 381x 386

Sensor equipped: Formaldehyde, PM2.5, CO2

The smart air purification system automatically analyzes and controls the Indoor Air Quality. IAQ can be monitored and controlled remotely via WiFi.

LIFAair LA510 Smart Air Purifier

Installation Guide:

Firstly, simply plug-in the power charger, slide anticlockwise on the touch ring of purifier main unit to let the indication light blink green slowly. With one finger press and hold the circle icon on the touch ring for over 5 seconds until the green light flashes rapidly, the main unit will then enter pairing mode for 30 seconds and at the same time press the pairing in the setting of the monitor to pair. Once unit paired with auto mode, the indication light becomes white colour and it starts to clean air.

1.1 Max. radius in terms of distance between the air purifier and Customers: 3.8 m

1.2 Clearance in distance from wall or other objects: 20cm

1.3 Location and orientation of air purifier: Located on the floor nearby walls

1.4 Distance above ground level: N/A

1.5 Serving Area (assuming 1 customers in 1.5 sq. meter): 58 sq. meters

Operation Guide:

2.1 Operation procedure (settings and modes, e.g. speed, on/off etc)

2.2 Maintenance procedure (e.g. frequency of filter replacement etc.)

Please refer to the operation manual.

Safety Precaution:

Important safety information

- Only use attachments/accessories provided by the manufacturer.
- Keep the machine away from children to avoid accidents.
- Do not block any ventilation openings. Install the machine in accordance with the manufacturer's instructions.
- Make sure the machine stands in the upright position, never operate the machine when in other orientations.
- Unplug the machine when it is not being used for a long period of time.
- Do not use this machine in rooms with large temperature differences to avoid water condensation inside.
- Protect the power cord from being walked on or pinched.
- Please switch off and unplug the machine before moving it or cleaning and/or replacing the filters.
- Do not use this machine in high temperature and/or humidity environments, such as bathrooms.
- Never open the power adapter to avoid electric shock and impact on warranty.
- For user safety and product protection, do not sit or lean on the machine.
- Do not put objects into the movable portion, the air inlet and/or outlet.
- Do not place the product directly under air conditioning units to prevent condensed water droplets.
- With the exception of professional maintenance personnel, please do not attempt to repair the product.
- To prevent electric shocks, be sure to follow the requirements of the method and manner of this manual for cleaning and maintaining the product. Please do not try to maintain the product in any other way.
- Please ensure that the machine is used only with the power supply unit provided with the appliance.

Safety marking label of main unit is on the bottom plate of the product.

Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

Correct disposal of this product. This marking indicates that this product should not be disposed with other household wastes throughout the EU. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources. To return your used device, please use the return and collection systems or contact the retailer where the product was purchased. They can take this product for environmental safe recycling.

Power warning:

- Place the product near the power outlet.
- Before use, make sure that the operating voltage is the same as your local power supply. Correct operating voltage can be found on the product plate.
- For safety purpose, unplug the product during lightning storms or when unused for extended periods of time.
- Under normal conditions, the power supply may get hot. Please keep good ventilation in the area and exercise caution.
- Safety warning labels on the housing or bottom of the product or power adaptor.

This symbol is to alert the user to the presence of un-insulated dangerous voltage within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

This symbol is to warn the user not to disassemble the enclosure of the product and there is no user-replaceable part inside. Take the product to an authorized service center for repair.

This symbol indicates that the product is for indoor use only.

For wireless product:

1. Wireless product may generate shortwave radio frequencies and interfere with the normal use of other electronic devices or medical equipment.
2. Turn off the product when it's disallowed. Do not use the product in medical facilities, on airplane, at gas stations, near automatic gates, automatic fire alarm system or other automated devices.
3. Do not use the product in the vicinity of a pacemaker within a 20cm range. The radio waves may affect the normal operation of the pacemaker or other medical devices.

WARNING!
Danger of explosion if the battery is incorrectly replaced. Replace only with the same or equivalent type.
For products with removable battery, the battery must be properly recycled or disposed. For products with built-in battery, disassembling is prohibited. Never disassemble, hit with force, squeeze batteries or dispose of batteries in fire. Do not expose batteries in conductive materials, liquid, fire or heat. Do not let metal object contact two battery poles. If the battery looks swollen, leaking, discolored, having odor or any abnormal appearance, stop using it. Do not use the battery after immersed in water. Improper use of battery may lead to explosion or leakage, causing skin burn or other injuries; in the event of battery leakage, handle it with care and immediately dispose of the battery in the manner in compliance with applicable laws and regulations in your locality.
