Flexible Rods

Designed for sweeping insulated metal chimneys and flexible flue liners

Key features

Affordable flexible rods made by us in Britain using flexible 12mm diameter rod for added strength and durability. Our superflexy 8mm nylon rods are ideal for sweeping tight 90° bends, and can also be used as a 'lead' rod with flexible 12mm rods.

High quality solid brass screw ends with ½" Whitworth screw fitting featuring chamfered edges to minimise risk of damaging flexible liners.

Flexible Liner Rod

Superflexy Liner Rod

Each pack includes a Heavy Duty rod bag.

Traditional Sweeping Kits

Flexible chimney liner sweeping kit with assortment of Soft Bristle Brushes

Kit Contents

- 1 x Heavy Duty Rod Bag
- 12 x 1 metre flexible liner rods (1/2" Whitworth)
- 1 x 5" Soft bristle brush
- 1 x 6" Soft bristle brush
- 1 x 7" Soft bristle brush
- 1 x 8" Soft bristle brush

Description	Product Code
12m Rod Kit with 5,6,7,8" brushes and heavy duty NACS Rod Bag	KNACSF01
12m Rod Kit with 5,6,7,8" brushes and heavy duty Guild Rod Bag	KGUILD01
12m Rod Kit with 5,6,7,8" brushes and heavy duty Rod Bag with Rodstation logo only	KRODF01

Masonry chimney sweeping kit with assortment of Medium Bristle brushes

Kit Contents

- 1 x Heavy Duty Rod Bag
- 15 x 90cm (3ft) rigid liner rods (3/4" Universal)
- 1 x 5" Medium bristle brush
- 1 x 6" Medium bristle brush
- 1 x 7" Medium bristle brush
- 1 x 8" Medium bristle brush
- 1 x 14" Medium bristle brush

Description	Product Code
13.5m Rod Kit with 5,6,7,8,14" brushes and heavy duty NASC Rod Bag	KNACSR01
13.5m Rod Kit with 5,6,7,8,14" brushes and heavy duty Guild Rod Bag	KGUILD01
13.5m Rod Kit with 5,6,7,8,14" brushes and heavy duty Rod Bag with Rodstation logo only	KRODR01

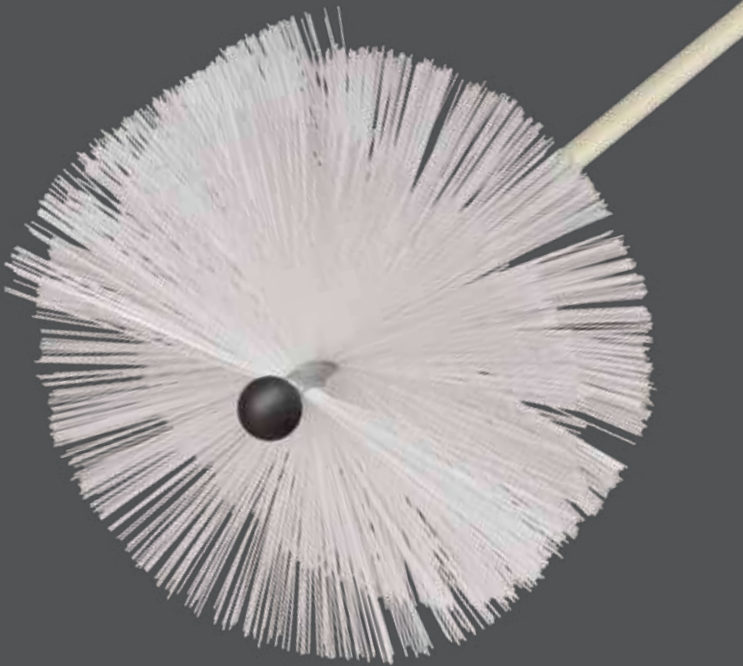

Bristle Brushes

Soft bristle brush - White

Soft bristle brush with protective ball end and Whitworth 1/2" male end screw fitting. For brushes with a universal fitting add 'U' after the product code, ie. FBS5U

Brush Diameter inches/mm	Product Code
4"/100mm	FBS4
5"/125mm	FBS5
6"/150mm	FBS6
7"/180mm	FBS7
8"/200mm	FBS8
10"/250mm	FBS10
12"/300mm	FBS12
14"/350mm	FBS14

Medium bristle brush - Orange

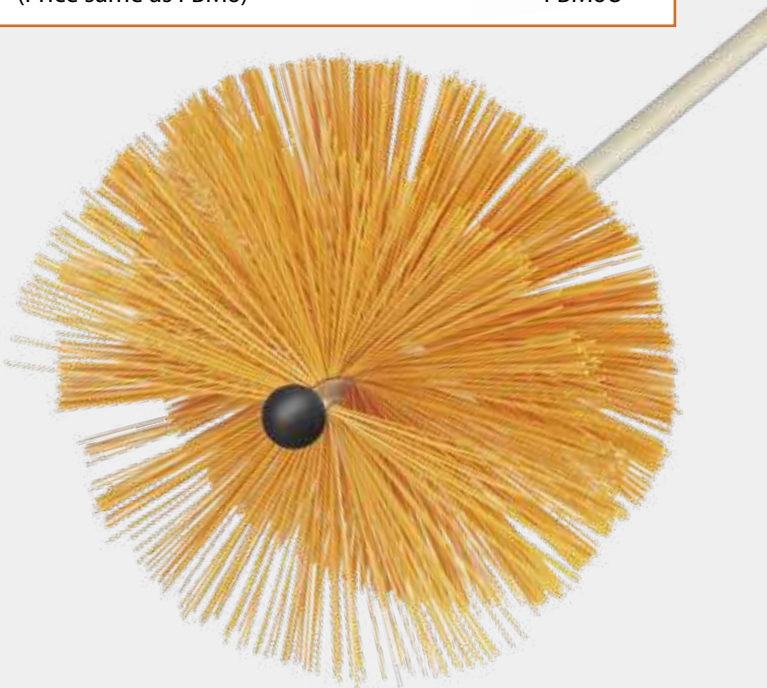

Medium bristle brush with protective ball end and Whitworth 1/2" male end fitting. For brushes with a universal fitting add 'U' after the product code, ie. FBM5U

Diameter inches/mm	Product Code
4"/100mm	FBM4
5"/125mm	FBM5
6"/150mm	FBM6
7"/180mm	FBM7
8"/200mm	FBM8
10"/250mm	FBM10
12"/300mm	FBM12
14"/350mm	FBM14

For brushes with a 3/4" universal fitting (to fit drain rods), use 'U' after the code, ie. FBM6U. Universal brushes do not have the ball top fitted as standard. (Price same as FBM6)

FBM6U

RodStation offers a great choice of brushes

For sweeping insulated metal chimneys and flexible liners with 1/2" Whitworth rods.
For masonry chimneys the 3/4" Universal brushes are used with rigid rods.
Ball end brushes fitted to brushes with 1/2" Whitworth fitting only.

Hard bristle brush - Grey

Medium bristle brush with protective ball end and Whitworth 1/2" male end fitting. For brushes with a universal fitting add 'U' after the product code, ie. FBH5U

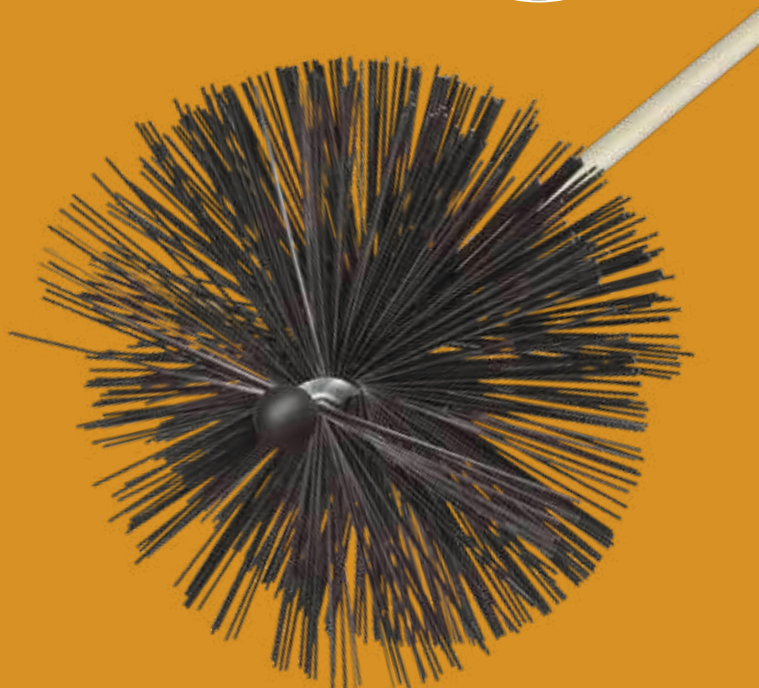

Diameter inches/mm	Product Code
5"/125mm	FBH5
6"/150mm	FBH6
7"/180mm	FBH7
8"/200mm	FBH8
10"/250mm	FBH10
12"/300mm	FBH12
14"/350mm	FBH14
16"/400mm	FBH16
18"/450mm	FBH18
20"/500mm	FBH20

Extra hard bristle brush - Black

Extra hard bristle brush with protective ball end and Whitworth 1/2" male end fitting. For brushes with a universal fitting add 'U' after the product code, ie. FBX5U

Diameter inches/mm	Product Code
5"/125mm	FBXH5
6"/150mm	FBXH6
7"/180mm	FBXH7
8"/200mm	FBXH8
10"/250mm	FBXH10
12"/300mm	FBXH12
14"/350mm	FBXH14
16"/400mm	FBXH16
18"/450mm	FBXH18
20"/500mm	FBXH20
22"/560mm	FBXH22
24"/610mm	FBXH24

Rigid Rods

Designed for sweeping masonry and pumice chimney liners

Affordable rigid chimney rods in diameters of 3/4", 7/8" and 1" with universal 3/4" brass fittings.

Item	Description	Product Code
A	3ft 3/4" diameter rigid sweeping rod	RR01
B	3ft 7/8" diameter rigid sweeping rod	RR02
C	3ft 1" diameter rigid sweeping rod	RR03
D	3ft 3/4" diameter rigid cane sweeping rod	CR01
E	3ft 7/8" diameter rigid cane sweeping rod	CR02
F	3ft 1" diameter rigid cane sweeping rod	CR03

Adaptors

We stock a great range of adaptors to convert to various imperial or metric sizes.
If you require a unique adaptor please contact us to discuss your requirements.

Item	Description	Product Code

Wire Brushes

Ideal for use in heavily tarred ceramic flue pipes, pre-cast sectional chimneys and brick chimneys

Fitted with universal 3/4" fittings

Description	Product Code
Wire Brush 100mm (4")	RW04
Wire Brush 150mm (6")	RW06
Wire Brush 200mm (8")	RW08
Wire Brush 230mm (9")	RW09
Wire Brush 300mm (12")	RW12
Wire Brush 400mm (16")	RW16

Flat Scraper Brush

For use in ceramic and brick chimneys with heavy soot and tar deposits where a scraping action is required.

Fitted with universal 3/4" fittings

Description	Product Code
Flat Scraper Brush 100mm (4")	RSB04
Flat Scraper Brush 150mm (6")	RSB06
Flat Scraper Brush 200mm (8")	RSB08
Flat Scraper Brush 300mm (12")	RSB12

Flue Brushes

For cleaning flues and airways in hard to reach areas and range cookers

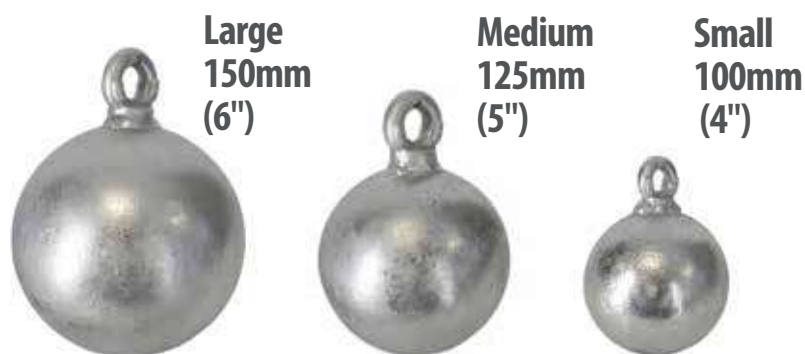

Item	Description	Product Code
A	Flue Brush 50 x 915mm	FLUE 1/2
B	Flue Brush 100 x 1220mm	FLUE 4
C	Flue Brush 100 x 1525mm	FLUE 5
D	Flue Brush 125 x 1800mm	FLUE 6
E	Flue Brush 7 Piece Set 50mm Brush	FLUE7
F	3 Piece Flue Brush Set	FLUE8

Coring Balls

Coring balls are ideal for clearing obstructions in the chimney prior to installation of a flexible liner

Constructed in solid steel and zinc plated to prevent rusting. Each ball includes a 14m length of rope. Must be used with care to avoid damaging the flue or chimney.

Heavy Duty Rope 14m

Coring Ball Set

Description	Product Code
Coring Ball 100mm (4")	CORS01
Coring Ball 125mm (5")	CORS02

FlueBoss® Powersweeping Heads

Key features

- FlueBoss® has a unique and easy to use mechanism to hold PowerSweeping nylon with many key advantages. (UK Patent No.2538585, US Patent No 10415826, European Patent Application No.16170220.4)
- A quick turn of the grub screw under the boss secures the nylon and protects the screw when sweeping.
- Simply push the nylon through the securing holes which saves time compared to taking discs apart or bending strands to fit in curved channels.
- The design allows the nylon to go up or down to suit different flue conditions.
- British made FlueBoss® is produced to high standards and features a domed head to assist easy passage in the flue with reduced risk of snagging flue liners.
- Robust copolymer flexible rods and rigid rods have colour anodised push fit ends for greater durability
- Quick "push-fit" connectors using push buttons giving time proven security and easy release (EU and US Copyright design)
- Wide range of adaptors, connectors and powerbrushes

FlueBoss Nylon Head XL with additional Nylon Shaft

FlueBoss XL Nylon is designed for larger flues where there can be more crevices and a higher build up soot deposits. Head Diameter 500mm.

The shaft can be used on larger diameter chimneys (head diameter 500mm) inbetween connecting rods or additionally with other power heads.

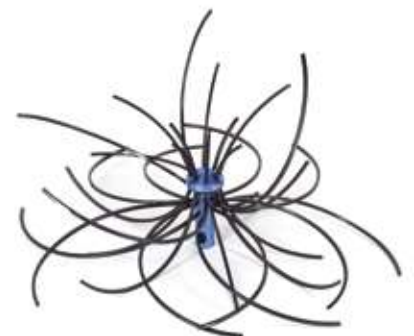

FlueBoss XXL Nylon

FlueBoss XXL Nylon is designed for larger flues where there can be more crevices and a higher build up soot deposits and is ideal for terminal cleaning and bird nest removal. Head Diameter 30 or 60cm (12" or 24")

FlueBoss Nylon

Replacement Nylon for use with FlueBoss head. Supplied in multiples of 1 metre.

FlueBoss Cable Head

For removing heavy deposits including bird nests and tar. Not suitable for metal chimneys or liners. Available in three sizes: Overall diameter when spinning is 300mm or 500mm. Cable can be replaced when worn. Also available in a cable 'loop'. Ideal for cleaning ceramic chimney liners.

Power Chain Head & Shaft

For removing heavy deposits including bird nests and tar. Not suitable for metal chimneys or liners. Available in two sizes. Overall diameter when spinning is 300mm or 500mm. Chain can be replaced when worn.

Power Chain Shaft can be used inbetween connecting rods or additionally with other power heads. Overall diameter when spinning is 500mm.

FlueBoss Abrasive Nylon

For use on masonry and clay liners. The abrasive grit is encapsulated in the nylon filament and is ideally used where extra abrasion is required to remove deposits (head diameter 300mm or 500mm).

FlueBoss Chain XXL

For removing heavy deposits including bird nests and tar, ideal for extra abrasion on glazed creosote and preventing chain wrapping around the lead rod. 40cm (16") overall diameter when spinning. Not suitable for metal chimneys or flexible chimney liners.

FlueBoss Nylon Head

Available in four sizes. Overall diameter when spinning is 150mm, 300mm, 500mm or 600mm. Nylon can be replaced when worn.

Power Chain

Replacement chain for use with Power Chain head. Supplied in multiples of 1 metre.

FlueBoss Cable

Replacement cable for use with FlueBoss head. Supplied in multiples of 1 metre.

FlueBoss® Colourcoded Powersweeping Rods

Designed for effective sweeping of insulated chimneys, flexible flue liners and masonry chimneys.

Powersweeping Rods (full length 1 metre / 3'3")

Rodstation's range of colourcoded FlueBoss® powersweeping equipment holds several patents and design copyrights. Manufactured in the UK from high grade aluminium which is hard colour anodized to increase strength and durability and to help with rod selection for chimney type. The colourcoded rods have a unique 'push fit' connection which is quick and extremely strong. A slight twist of the rod engages the button into position with a reassuring 'click'.

FlueBoss® Colourcoded Rods Features & Specifications

Gold 9mm	
Applications	Flexible liner/ single/ twinwall/gas/oil
Features	Ideal for 5" to 8" steel flues, lightweight and excellent for restricted access
Diameter	9mm (ferrule diameter 16mm)
Flue Range	2" to 7"
Flexibility	90%
Colour	GOLD
Weight:	120g
Code	PSRM01SB

Green 8mm	
Applications	Biomass/gas/oil
Features	Very high flexibility, restricted access or lead rod and tight bends
Diameter	8mm
Flue Range	3" to 7"
Flexibility	100%
Colour	GREEN
Weight:	140g
Code	PSR01SB

Pink 10mm	
Applications	Flexible liner/ single/ twinwall
Features	High flexibility, lightweight good for bends and flexible liners
Diameter	10mm
Flue Range	3" to 7"
Flexibility	80%
Colour	PINK
Weight:	160g
Code	PSR02SB

Orange 12mm	
Applications	Flexible liner/ single/ twinwall
Features	Ideal for 5" to 8" steel flues, lightweight and great on 6" flues
Diameter	12mm
Flue Range	5" to 8"
Flexibility	70%
Colour	ORANGE
Weight:	205g
Code	PSR03SB

Red 14mm	
Applications	Ceramic Liners
Features	Ideal for ceramic round liners, ducting, drains and unlined flues
Diameter	14mm
Flue Range	8" to 16"
Flexibility	60%
Colour	RED
Weight:	250g
Code	PSR04SB

Grey 16mm	
Applications	Larger masonry flues/ square
Features	Ideal for larger pumice and masonry flues
Diameter	16mm
Flue Range	16" +
Flexibility	40%
Colour	GREY
Weight:	320g
Code	PSR05SB

Black 18mm	
Applications	Larger inglenook flues
Features	Heavy duty rigid ideal for large straight flues, reaming
Diameter	18mm
Flue Range	18" +
Flexibility	30%
Colour	BLACK
Weight:	430g
Code	PSR06SB

Purple 20mm	
Applications	Large Inglenook
Features	Ideal for large inglenook tall flues, reaming
Diameter	20mm
Flue Range	20" +
Flexibility	20%
Colour	PURPLE
Weight:	520g
Code	PSR07SB

Stainless Steel 20mm	
Applications	Large Inglenook/ liner breaking
Features	Heavy duty rigid ideal heavy duty liner breaking and reaming
Diameter	20mm
Flue Range	20" +
Flexibility	15%
Colour	STAINLESS
Weight:	560g
Code	PSRS20SB

Stainless Steel 22mm	
Applications	Large Inglenook/ liner breaking
Features	Heavy duty rigid ideal heavy duty liner breaking and reaming
Diameter	22mm
Flue Range	20" +
Flexibility	10%
Colour	STAINLESS
Weight:	660g
Code	PSRS22SB

Blue 20mm	
Applications	Large Inglenook
Features	Very rigid ideal for tall very wide flues and horizontal ductwork
Diameter	20mm
Flue Range	20" +
Flexibility	5%
Colour	BLUE
Weight:	460g
Code	PSR08SB

FlueBoss Mini Powersweeping Kit

The FlueBoss Mini Powersweeping Kit is designed for cleaning of 2" to 7" pipes such as Biomass flues, air conditioning ducts and dryer vents where extra flexibility is required. The small diameter head (only 3/4" when compressed) makes it ideal for negotiating through awkward spaces and opening up when spinning.

Wireless Inspection Camera Kit

This portable wireless or wired inspection camera kit is ideal for checking the inside of chimneys and flue liners.

It's easy to operate and powered by a high capacity Li-battery with up to 2 hours continuous working time.

Full colour viewing.

Camera Head

- "Ball" housing to protect the camera featuring adjustable arms to aid the camera through the flue
- Quick fitting of camera ball to Whitworth rod or adaptor to Power sweeping rods
- 90° field of view
- High brightness LED offers long visible range up to 5 metres.
- Ball diameter 2.5" / 65mm

Monitor

- 5- inch rechargeable HD Display Monitor
- 10 hours recording time
- Seamless loop recording
- 15m wireless transmission range (subject to chimney construction)
- Photo function
- Supports Micro SD Card for recording video and photo

Pack includes:

- Heavy duty Rodstation camera carry case
- Camera ball with 4 x rigid and 4 x flexible adjustable arms
- Wireless camera
- Free 16GB Micro SD Card
- 5" HD Display Monitor
- User manual
- USB Cable
- AV-IN Cable
- AV-OUT Cable
- AC Adaptor
- Adapter to 3/4 inch Universal Rods

Optional extra 15m wired camera

Meeco's Red Devil

Fire Safety and Maintenance Products

MEECO have appointed Rodstation as the exclusive distributors for the UK and Europe for their range of proven products aimed at reducing and stopping chimney fires.

Founded in 1937, MEECO are well known in the USA for manufacturing a wide range of safety and maintenance products for wood and solid fuel burning. They have built a reputation for high quality and service. Originally the United States Department of Natural Resources contracted them to develop a product for the removal of soot from wood-burning generators and power plants, which they then launched under the MEECO's Red Devil trademark.

FireEx

The MEECO FireEx is quick and easy to use. At the first sign of a chimney fire simply toss into the firebox and the chimney fire stops within minutes. The FireEX is not a flare and works without any pre ignition. The FireEx has been performance tested using creosote-fuelled chimney fires and will not cause any water damage. Suitable for use on Stoves, Fireplace Inserts and Fireplaces.

Watch a video demonstration of the FireEx in action on Rodstation's YouTube Channel.

Description	Product Code
FireEx	MFx01
FireEx Box Of 6	MFx06

Powdered Creosote Destroyer

This Powdered Creosote Destroyer is specially formulated to control creosote build-up in wood and coal stoves, when it is put on a fire. It works as a catalyst destroying the binder holding the creosote particles together. Regular removal of creosote build-up can help to prevent chimney fires.

Description	Product Code
Tub Creosote Destroyer 2lb	MCD02
Tub Creosote Destroyer 5lb	MCD05

ColorGlo Flames

MEECO ColorGlo Flames add a rainbow of colours to your fireplace, woodstove or campfire. 2-3 cones will burn for 10-12 minutes. Each box contains at least 30 cones.

It is a legal requirement that the installation of a chimney, flue lining and/or a combustion appliance complies with the Building Regulations. Approved Document J 2010 explains the requirement for England and Wales.

Chimney Notice Plates

The requirement to provide a Notice plate is described in the following extract from ADJ 2010.

"1.57 Where a hearth, fireplace, (including a flue box), flue or chimney is provided or extended (including cases where a flue is provided as part of the refurbishment work), information essential to the correct application and use of these facilities should be permanently posted in the building. A way of meeting this requirement would be to provide a notice plate as shown in Diagram 16 conveying the following information.

Data plate includes the required details and is made from metal to comply with the requirement for a durable plate to be used. It is 110mm x 110mm and has a matt aluminium finish for writing in the details with a permanent marker pen.

The installer is considered to be responsible for providing the completed notice plate and fixing it next to the chimney or hearth described; or next to the water supply stop-cock or electricity consumer unit.

Description	Product Code
Chimney Notice Plate x 1	ACNP01
Chimney Notice Plate x 10	ACNP10
Chimney Notice Plate x 50	ACNP50

CO Alarms

Requirements to fit CO Alarms

When installing a solid fuel or wood burning stove it is a legal requirement to fit a carbon monoxide alarm in the same room. This is a new requirement in the 2010 ADJ, which says:

2.36 The carbon monoxide alarm should be located in the same room as the appliance:

- on the ceiling at least 300mm from any wall or, if it is located on a wall, as high up as possible (above any doors and windows) but not within 150mm of the ceiling; and*
- between 1m and 3m horizontally of the appliance.*

We stock and sell the **Honeywell XC70 alarm** that has a 7 year warranty and battery life. It is certified to BS EN 50291 and listed by HETAS. The slim line unit is easily fitted using 2 plugs & screws.

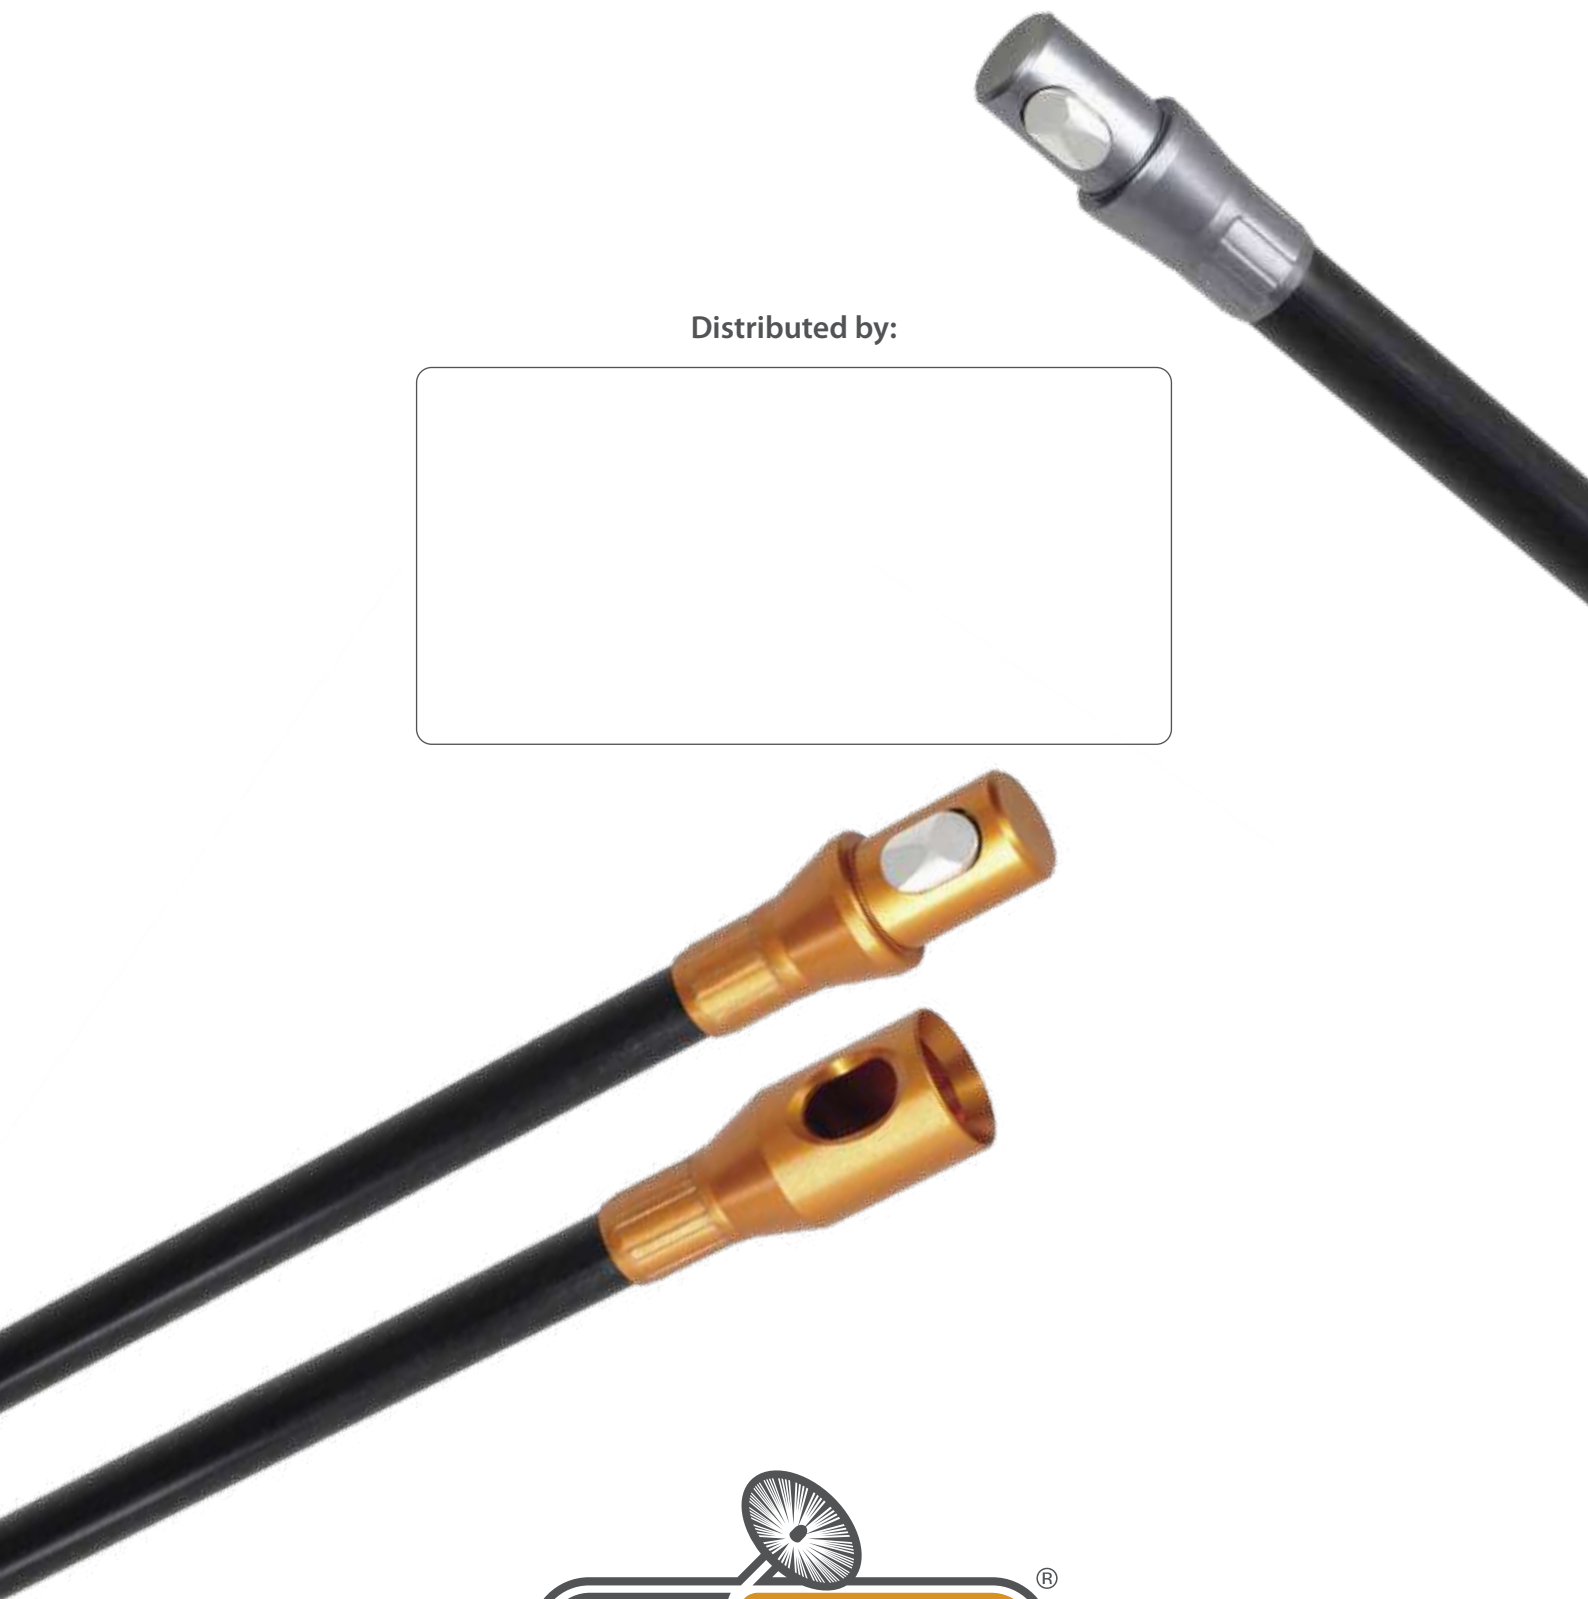

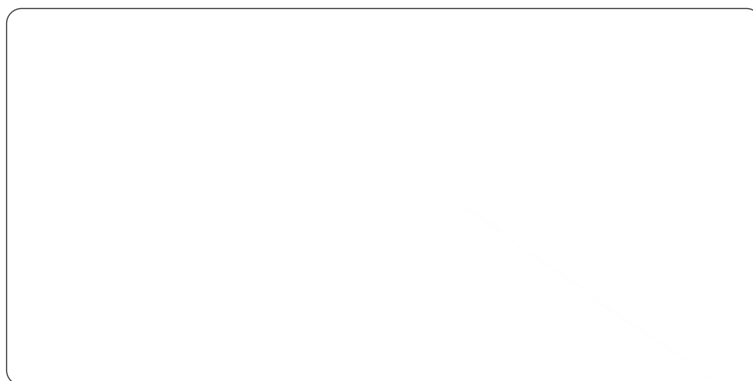

XC70

Carbon monoxide alarm

Description	Product Code
