

# Wheeled fire box

## The ultimate solution

Introducing Jonesco's new wheeled fire box. This front-loading unit is specifically designed to provide seamless manoeuvrability and swift access during emergency situations. With its generous 915 x 360 x 195 mm internal capacity, this wheeled cabinet is an excellent solution for storing and deploying [large fire extinguishers](#), [fire blankets \(including EV size\)](#) and other essential safety equipment.

Made from fully recyclable PE, the [JBWE95M](#) boasts exceptional durability. Equipped with robust rubber wheels and a convenient handle, it ensures effortless transportation from one location to another. The toggle access feature guarantees quick and hassle-free retrieval of equipment during critical moments.

Of course, this box is also still available without wheels, either for wall mounting or free-standing use, and with two different access options: plastic toggles ([JBWE95](#)) or break-glass ([JBKE95](#)).

**NOTE: wheels and handle require self-assembly.**

Colour	H x W x D (mm)	Weight (kg)	Access
<a href="#">JBWE95M</a>	1000 x 540 x 345	9.5	Plastic toggles
<a href="#">JBWE95</a>	950 x 445 x 280	9	
<a href="#">JBKE95</a>	950 x 425 x 280		Break-glass
